An Unknown Man Commits Suicide Near the

Morgue. FOUND IN A WAGON LYING IN A POOL OF BLOOD-NOTHING ABOUT HIM TO GIVE A RINT AS TO

In the rear of the sixth precinct station on New Jersey avenue, near the Baltimore and Ohio depot, there is a little brick building which is known as the morgue, and this structure was converted into an emergency hospital

There was only one patient in the hospital and he was a man apparently twenty-five or thirty years old. He had attempted suicide and had made a ghastly wound in his head which was necessarily fatal, and Dr. Hannon, earthquake. who was called to attend him, said that the

patient might live several hours after sundown this evening. NOTHING TO SHOW HIS IDENTITY. The identity of the unfortunate man is not rash act some time before he pulled the trigger of a 44 caliber American building revolver and sent the heavy pill of lead crashing through his brain, for there Page 8

person to indicate that he was ever a resident
of this city. Then, too, he selected a spot not
more than 150 feet from the morgue where to

commit the deed. THE SUICIDE DISCOVERED. The exact time the shot was fired is not known, for no one heard the report, but it is known that it was between the hours of 6 and 7 known that it was between the nours of c and t o'clock, as he was seen on the lot near the morgue about 6 o'clock. About 7 o'clock a small boy passing the wheelwright shop near the morgue saw a man in a wagon belonging to Mr. W. A. Pate, hardware dealer be urgently requested to prevent sickness and started to the province of the pro at No. 220 10th street, and he notified a man in starvation

the shop. When the latter discovered that the man was in a pool of thickened blood he thought that there had been foul play and sent of February and March were either thrown word to the police station.

When the officers reached the wagon they found the man with the terrible gash on the side of his head. His brains were protruding from the wound and at his side lay the heavy pistol. To all appearances the man was dying, and thinking it unsafe to move him any dis-tance he was taken into the morgue and placed

in a comfortable position on the stretcher.

Dr. Hannon was soon at his side and he gave orders not to remove the man, as it would only hasten his death. Injections of morphine and brandy were administered and the patient's pulse became stronger during the day. All day long persons have flocked to the morgue to see the unfortunate man, but none had identified him at 3 o'clock.

THOUGHT TO BE A STRANGER. MR. BRAWLEY of Meadville, the new sixth auditor, has arrived in the city, and will enter upon his duties in a day or so.

The Public Reception of the President, held in the east room at 1 o'clock today, was but slimly attended, not over 200 persons being present, an unusually small number.

Expected Back Tokorrow.—Secretary of the Interior Mr. Hoke Smith is expected to be at his desk tomorrow morning. He has been spending a few days at his home in Atlanta.

It is generally supposed that the would-be suicide is a stranger in this city. He is a German and has a light mustache. He wore a red checkered percale outing shirt and blue trousers. His heavy shoes appeared as though they had passed over some rough roads lately, and his hat, a black derby, had been stripped of that portion of the lining on which would, in all probability, bethe name of the maker or dealer from whom the hat had been purchased. This was probably done in order to prevent giving the city from which the man had come. In his pockets were found a spending a few days at his home in Atlanta.

Of this number seventy-nine were to fill vacancies caused by resignations and death.

The Island Visited by an Earthquake That Causes Great Loss of Life and Property. ATRENS, April 17.—The Island of Zante, one of the principal Pallonian Islands, was visited by a most destructive earthquake, which resulted in great loss of life and property. In

February and March last the islands sustained a large amount of damage by siesmitic disturbances and a large number of lives were lost. The shock this morning appears to have been most violent in the city of Zante, the greater part of which was destroyed. The people are panic stricken and the authorities helpless. The streets are impassable, being filled with masses of stone and number, the wreckage of the houses which were the received. the houses which were thrown down by the

Everything is in confusion and the work of searching for bodies and for injured cannot be pur-sued systematically. The greater portion of the inhabitants have fled to the plains back of the city, where they wander about in a distracted manner bewailing the loss of their homes and property. A large number of tents that were taken to Zante to shelter the people who were rendered homeless by the for-mer earthquakes have been again set up and under them some of the women and children

GENERAL STRIKE OF DOCKMEN. It Will Depend on the Conference Tonight of Labor Leaders. LONDON, April 17 .- The result of the agite tion in favor of a general strike of dock laborers and others employed in the shipping trade in support of the striking dock laborers at Hull depends upon the action of the conference of Waterside delegates which will be held in the city tonight. W. Admiral Benham's Mission.

Bear Admiral Benham, commanding the first division of the United States naval fleet in the naval review, came up to Washington from Hampton Boads today and had a conference with the Secretary of the Navy in regard to the disposition of the vessels of his command after the review.

Would throw Wall street into a whirl of excitement was hardly realized this morning. It is true that the market declined anywhere from 1/2 to 5 per cent, but the average loss was not much over 1 per cent. Manhattan, lead preferred, Tennessee coal and iron and Pullman palace car were the only ones that sold off as much as 2 per cent, and these stocks were influenced by special causes. The engagement of nearly \$2,000,000 gold and the talk about heavy shipments later in the week alone would account in ordinary times for such a decline as was witnessed this morning. Again sterling exchange was advanced 3/2 cent to 4874 and 4800. nessed this morning. Again sterling exchanges advanced 1/2 cent to 4871/4 and 4891/4 own to the continued scarcity of commercial
